Precision Pocket Watches

*For more than 100 years*

Glashütte Lange Watches have been renowned for absolute precision in measuring time for scientific, practical and everyday purposes all over the world.

A large number of medals and diplomas testify the official acknowledgement of the unequalled performances of Lange Watches. Scientists and explorers of world-wide fame, such as Amundsen, Filchner and others made use of our timekeepers on their expeditions.

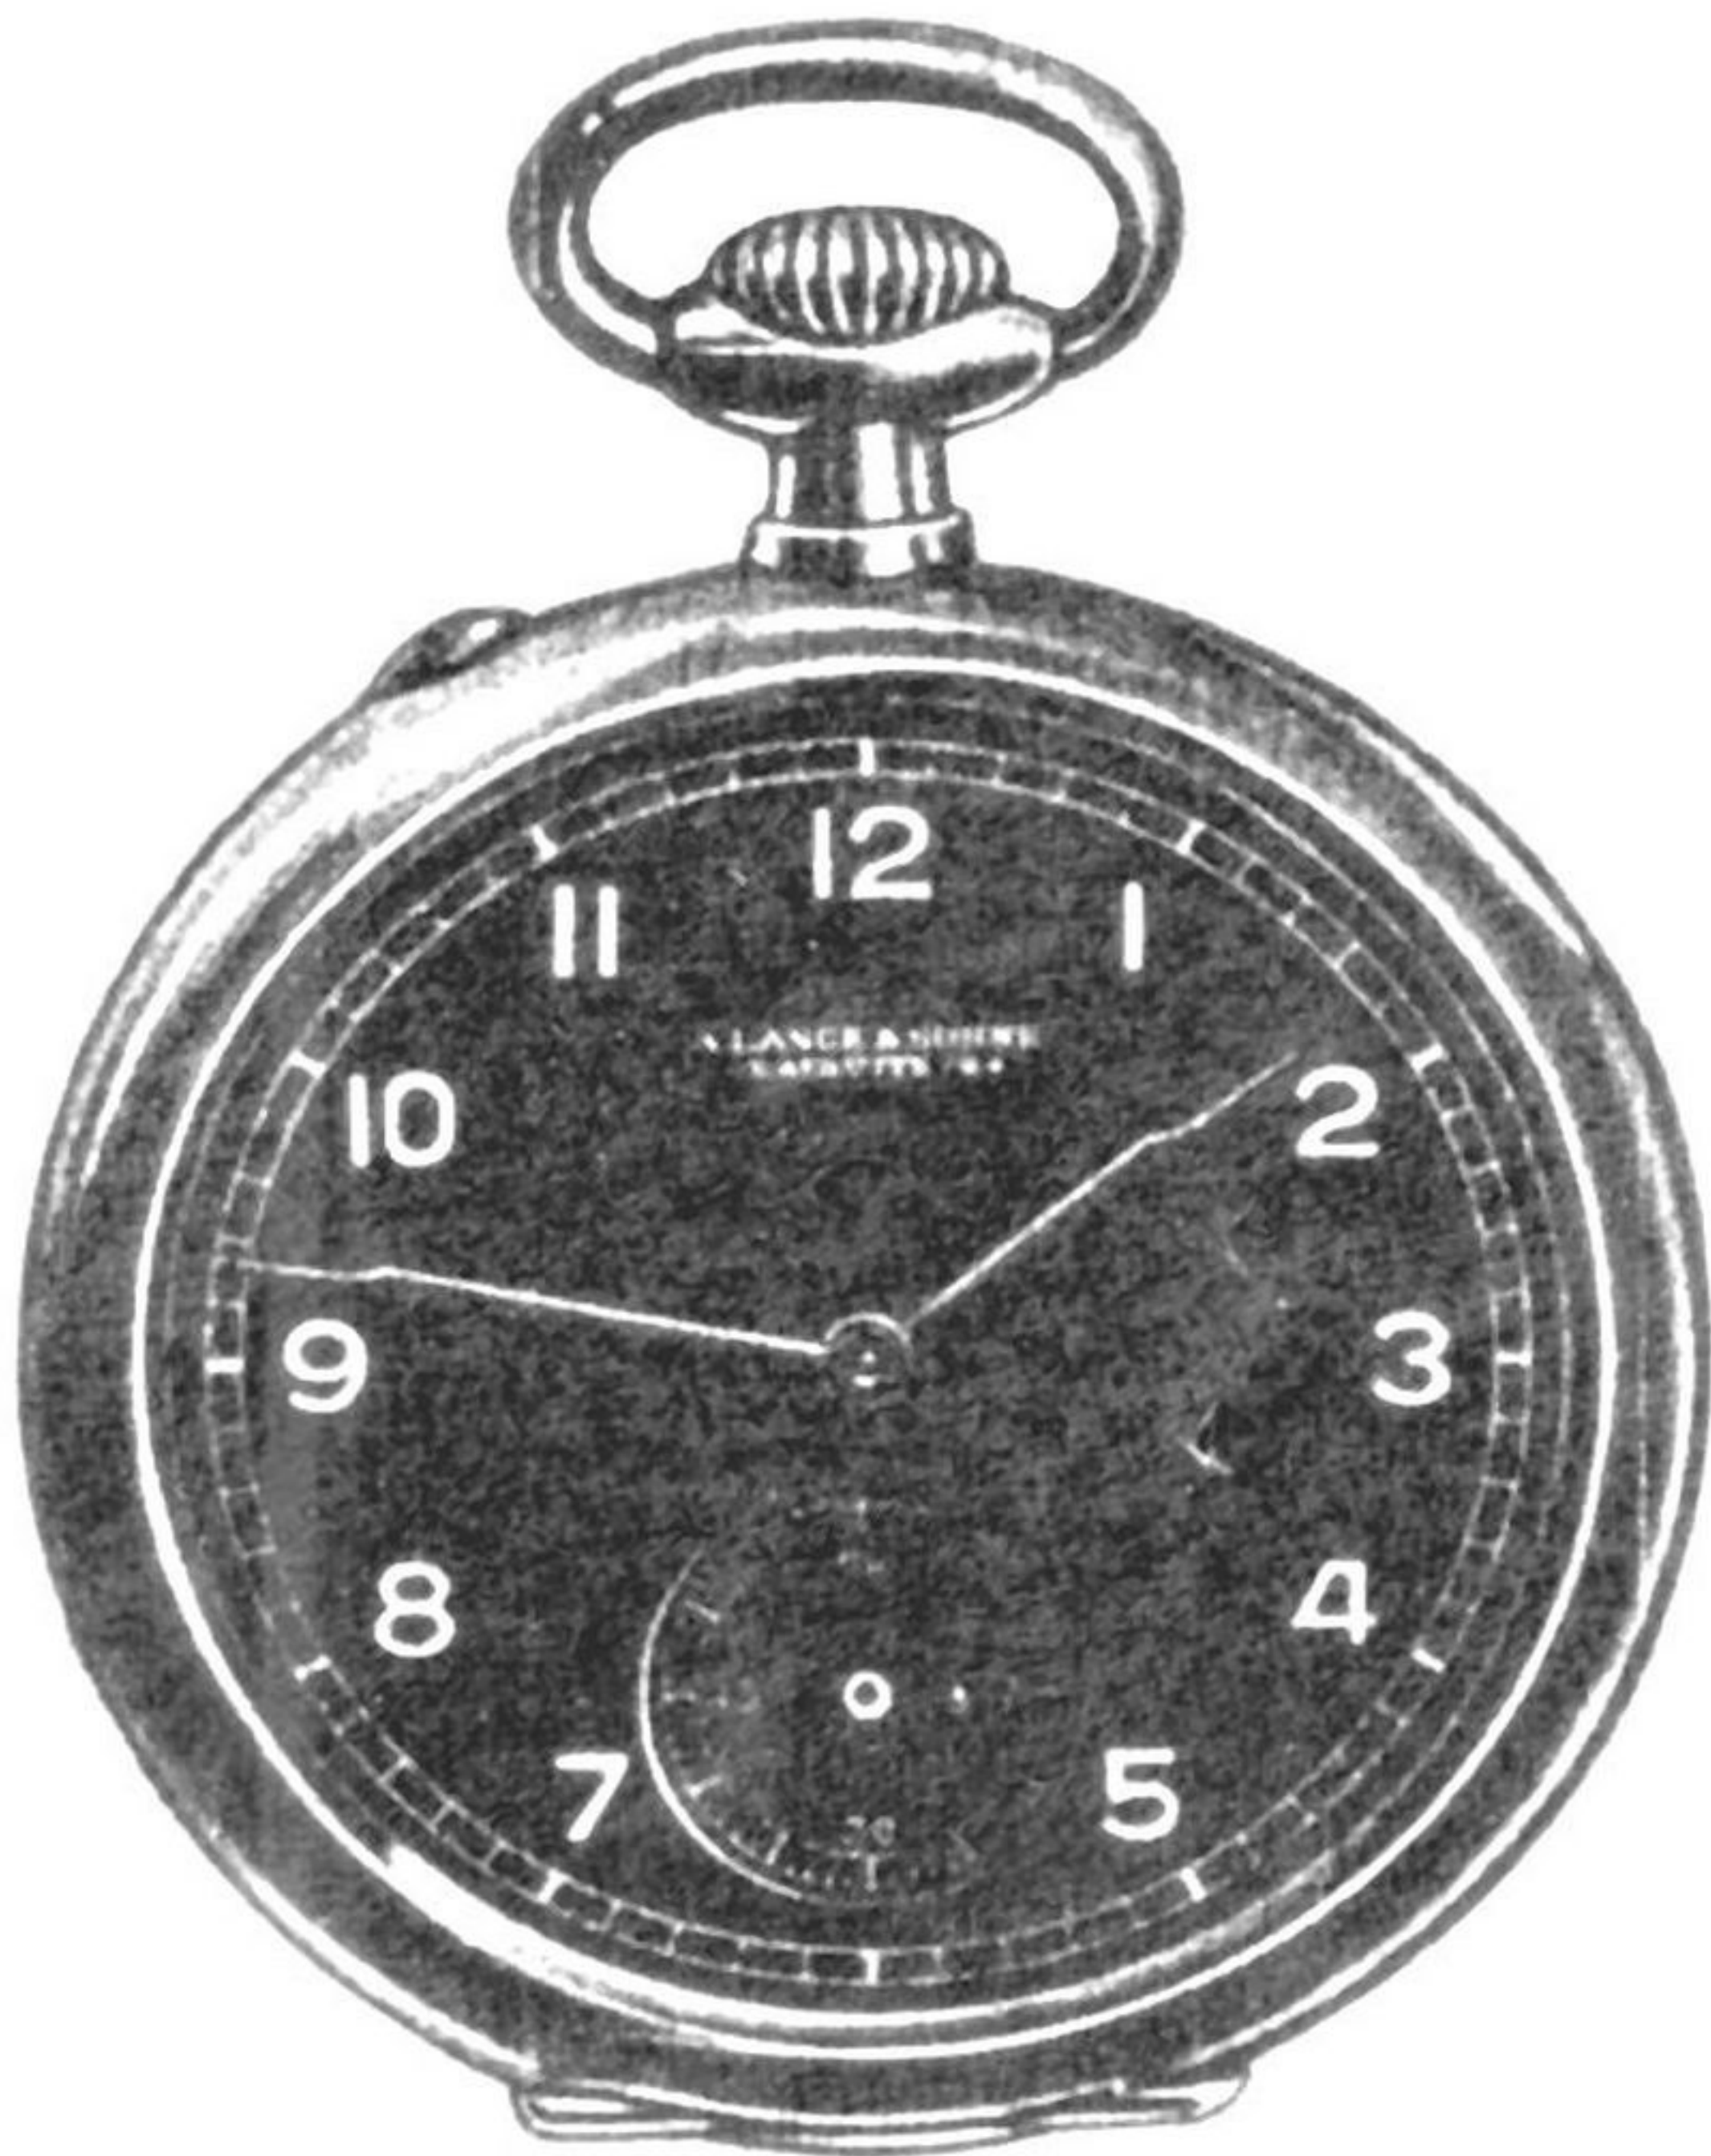

Experiences of many years covering all lines and demands enable our experts to offer a time-keeper that answers all purposes.

*P*erfect construction and utmost accuracy of the movement enable our experts to turn out every Lange-Watch as a Precision Watch that is finally timed and controlled in different temperatures and positions for a long time.

The Watch is your daily companion and it is our aim to produce such reliable watches in handsome cases for your purposes.

On account of the high-grade workmanship and distinguished exterior our Lange Watches are also valuable presents for members of your family. Moreover they form a high mode of reward for special work and faithful services rendered.
